CSG 1102 – Operating Systems Workshop10

- Compare process-based DO/S and object-based DO/S. Compile a list of advantages and disadvantages for both types.

- Discuss their experiences with File Transfer Protocol (FTP) in the past. What do you think are the advantages and disadvantages of using FTP?

- Research online to determine how to set up virtual private network (VPN) connections in Windows 7.

- Research online to find five examples of distributed operating systems. Provide a short description for each including key properties.
